

The Evermore Apartment October 2019 Update

The Landence team are excited to inform our purchasers and potential purchasers that we are now well underway with construction and on track of the existing programme.

The overall project contains two striking towers up to 24 floors each and provides 366 apartments in total which is a significant undertaking and demonstrates Landence's commitment in the market.

- The structure of the two towers have now been completed
- The façade and windows are being installed up to Level 14-15
- The internal fitout are being completed up to Level 8-9
- In the next 2 months, we expect the builder to complete most of the building façade, continue on the internal fit out and will commence the fitout work in common areas and amenity spaces.

Currently building estimation on whole project completion is **February 2020**.

The team at Landence will share our next project progress with you before Christmas 2019.

We would welcome all our purchasers and potential purchasers to visit our new completed display apartment at The Evermore, this is by **appointment only** and can be organised through our sales staff via our display suite located at 95 Coventry St, Southbank.

Should you have any questions or queries, please contact us by email: TheEvermore@landence.com.au, our dedicated team will follow up as soon as possible.
